

AAMP Antibody

Subcategory: Rabbit Polyclonal Antibody

Cat. No.: 252089

Unit: 0.1 mg

Description:

Angio-associated migratory cell protein (AAMP) plays a role in angiogenesis and cell migration. In smooth muscle cell migration, AAMP acts through the RhoA pathway. AAMP is expressed in metastatic melanoma, liver, skin, kidney, heart, lung, lymph node, skeletal muscle and brain, and also in A2058 melanoma cells and activated T cells (at protein level).

Isotype: Rabbit Ig

Applications: E, WB

Species Reactivity: H, M, R

Format: Each vial contains 0.1 mg IgG in 0.1 ml (1 mg/ml) of PBS pH7.4, 0.5% BSA with 0.09% sodium azide. Antibody was purified by immunogen affinity chromatography.

Alternate Names: Angio-associated migratory cell protein; AAMP

Accession No.: Q13685

Antigen: KLH-conjugated synthetic peptide encompassing a sequence within the N-term region of human AAMP.

Application Notes: E: 1:10,000-1:50,000; WB: 1:100-1:1,000

The AAMP Antibody is used in Western blot to detect AAMP in human fetal kidney lysates.

Storage: Store at -20°C. Minimize freeze-thaw cycles. Product is guaranteed one year from the date of shipment.

For research use only, not for diagnostic or therapeutic procedures.
