

DAP3 Antibody

Subcategory: Rabbit Polyclonal Antibody

Cat. No.: 252183

Unit: 0.1 mg

Description:

Mammalian mitochondrial ribosomal proteins are encoded by nuclear genes and help in protein synthesis within the mitochondrion. Mitochondrial ribosomes (mitoribosomes) consist of a small 28S subunit and a large 39S subunit. Death-associated protein 3 (DAP3), a 28s mitoribosome, is involved in mediating interferon-gamma-induced cell death.

Isotype: Rabbit Ig

Applications: E, WB

Species Reactivity: H

Format: Each vial contains 0.1 mg IgG in 0.1 ml (1 mg/ml) of PBS pH7.4, 1% BSA with 0.09% sodium azide. Antibody was purified by immunogen affinity chromatography.

Alternate Names: 28S ribosomal protein S29, mitochondrial; S29mt; MRP-S29; Death-associated protein 3; DAP-3; Ionizing radiation resistance conferring protein; DAP3; MRPS29

Accession No.: P51398

Antigen: KLH-conjugated synthetic peptide encompassing a sequence within the C-term region of human DAP3.

Application Notes: E: 1:10,000-1:50,000; WB: 1:200-1:500

The DAP3 Antibody is used in Western blot to detect DAP3 in Jurkat cell lysates.

Storage: Store at -20°C. Minimize freeze-thaw cycles. Product is guaranteed one year from the date of shipment.

For research use only, not for diagnostic or therapeutic procedures.
