
FAAH2 Antibody

Subcategory: Rabbit Polyclonal Antibody

Cat. No.: 200190

Unit: 0.1 mg

Description:

Fatty-acid amide hydrolase 2 (FAAH2) degrades fatty acid amides into the corresponding acid; thereby, terminating the signaling functions of these molecules. FAAH2 hydrolyzes polyunsaturated substrates preferentially to monounsaturated substrates

Isotype: Rabbit Ig

Applications: E, WB

Species Reactivity: H

Format: Each vial contains 0.1 mg IgG in 0.1 ml (1 mg/ml) of PBS pH7.4 with 0.09% sodium azide. Antibody was purified by Protein-G affinity chromatography.

Alternate Names: Fatty-acid amide hydrolase 2; Oleamide hydrolase 2; Anandamide amidohydrolase 2; Amidase domain-containing protein; AMDD; FAAH2

Accession No.: Q6GMR7

Antigen: KLH-conjugated synthetic peptide encompassing a sequence within the C-term region of FAAH2.

Application Notes: E: 1:500-1:1,000; WB: 1:100-1:500

Storage: Store at -20°C. Minimize freeze-thaw cycles.

Product is guaranteed one year from the date of shipment.

For research use only, not for diagnostic or therapeutic procedures.
