

Leptin (A1) Antibody

Subcategory: Mouse Monoclonal Antibody

Cat. No.: 250233

Unit: 0.2 mg

Description:

Leptin, also called obesity factor, is a protein produced by adipose tissue, which has a regulatory influence on food intake, energy metabolism and reproduction. Leptin may also play a role in immune and inflammatory responses and hematopoiesis. This antibody binds human leptin.

Isotype: Mouse IgG1/k

Applications: E, IHC

Species Reactivity: H

Format: Each vial contains 0.2 mg IgG in 0.2 ml (1 mg/ml) of PBS pH7.4 with 0.09% sodium azide. Antibody was purified by Protein-A/G affinity chromatography.

Alternate Names: Leptin; Obesity factor; Obese protein; LEP; OB; OBS

Accession No.: P41159

Antigen: Recombinant leptin (human) adsorbed onto aluminum hydroxide

Application Notes: Product Cat. No. 250233 binds free leptin in solution. The ELISA dilution guideline applies to leptin coated directly at 1.0 ug/mL. In sandwich ELISA, Product Cat. No. 250233 works as capture antibody with Product Cat. No. 250235 as detection antibody. E: 1:40,000; IHC:1:100-1:500

Paraffin-embedded human malignant carcinoid is stained with Leptin (A1) Antibody (Cat. No. 250233) used at 1:200 dilution.

Storage: Store at 4°C. Product is guaranteed 6 months from the date of shipment.
