
MBP (3G1A) Antibody**Subcategory:** Mouse Monoclonal Antibody**Cat. No.:** 252778**Unit:** 0.1 ml**Description:**

MBP (Maltose Binding Protein) is used as an epitope tag. Epitope tagging offers an easy and universal strategy for the identification and purification of proteins derived by recombinant DNA technology. MBP tag creates a stable fusion product that does not interfere with the bioactivity of the protein or with the biodistribution of the MBP tagged product. Cleavage by factor Xa separates MBP from its partner protein.

Isotype: Mouse IgG1**Applications:** WB**Species Reactivity:** Other**Format:** Each vial contains 0.1 ml ascitic fluid with 0.03% sodium azide.**Alternate Names:** Maltose Binding Protein; MBP**Accession No.:** O82986**Antigen:** Recombinant fusion protein with Maltose binding protein tag.**Application Notes:** WB: 1:500-1:2000**Storage:** Store at 4°C for short term use only. Store at -20°C for storage over 1 month. Product is guaranteed 6 months from the date of shipment.

For research use only, not for diagnostic or therapeutic procedures.
