
ZC3H12C Antibody

Subcategory: Rabbit Polyclonal Antibody

Cat. No.: 254253

Unit: 0.1 mg

Description:

ZC3H12C, also known as MCP1P3, is a member of a family of novel CCCH-zinc finger proteins that includes ZC3H12A, a protein that is thought to be involved in macrophage activation, host immunity and inflammatory diseases. Similar to ZC3H12A, ZC3H12C expression in macrophages is highly increased after treatment with lipopolysaccharide (LPS), suggesting it also may play a role in host immunity and inflammatory response.
